

GICLÉE PRINTING PRICE LIST

Giclée printing is done using a Canon large format printer with pigment inks which will not fade. Images should be provided in high resolution (300 dpi) to ensure that the final print is of excellent quality. If you have any questions about this, please just ask.

Photographic paper and Hahnemuhle German Etching fine art paper are always in stock. If you would like printing on a different paper stock, please ask and it may be possible to buy in the paper for you.
